

#### About AJ&B

Aldworth James & Bond is a multidisciplinary group of designers, project managers, tradespeople and makers.

We are skilled in design, joinery, metalwork, specialist finishes and digital fabrication.

We work all over the world on a range of diverse and exciting projects and installations.

We're recognised as experts in all of our fields.

#### Our approach

Aldworth James & Bond is driven by true enthusiasm for creative builds.

Creativity, expertise and quality in the detail are of the utmost importance.

Making informs design, achieved by constant dialogue between our workshop and studio.

We are a dedicated group of young and happy people who love doing what we do.

#### Our services

We consist of four distinct teams, each with their own area of expertise.

AJ&B Projects completes creative builds for architects, designers, artists, companies and individuals. End to end delivery encompassing design, project management, procurement, manufacture, finishing and install.

AJ&B Studio is our dedicated in-house design and project management team, offering our making led design expertise as a standalone service.

AJ&B Works provides a direct route to our CNC and laser cutting machinery and metalwork facilities for production ready clients.

AJ&B Makes focuses on manufacturing furniture and products, from prototyping through to full scale production.

Talk to us

We really want to hear from you. No matter how big or small your project might be, we would enjoy talking it through – but we would absolutely love to make it happen.
